

Van Zandt Animal Care Center

Keep your kitten healthy for less with our monthly payment plans

Illness is more common than you think

Kittens are very susceptible to diseases like feline leukemia, FIP, Distemper and a variety of upper respiratory viruses. So it's important to use a proven vaccine and deworming on a regular schedule

Growing bones need special care

Kittens grow so quickly right before our eyes. For some breeds this quick growth presents some problems. No matter the breed puppies need to be examined frequently in order to make sure their growth and development in on the right tract

Prevention is the key to a longer life

Preventive care can help set the foundation for a lifetime of good health, so you and your puppy can spend more quality years together. We see diseases late since our pet's can't talk to us
